

Sirs,

I wish to protest your recent decision to consider ending most of the few remaining restrictions on the concentration of ownership in the news media. Can you present me an argument explaining how the public interest is served by having the same mega corporation own the newspaper, radio stations and TV stations in my town?

The concentration that exists now needs to be reversed but this move to allow even more of it is really outrageous!

Please desist from this course of action and act, instead, to reverse concentration in media ownership.

Charles Michael
